The Stout Campus — 1953.

Growing toward the Future

THROUGH the years, the Stout Institute has grown from a normal school, offering only two years of education, to a full fledged college which offers four years plus a full year of graduate study.

Founded as The Stout Manual Training School by Senator James H. Stout of Menomonie in 1893, the school was financed by him until his death in 1910. At this time The Stout Institute was presented to the state, accepted and placed under the direction of a Board of Trustees.

On his retirement from the position of State Superintendent of Public Instruction in Wisconsin, Lorenzo D. Harvey became President of Stout Manual Training School and later of The Stout Institute. After his death in 1922, Burton E. Nelson became President, continuing until his retirement in 1945. He was succeeded by Verne C. Fryklund, who assumed the executive duties as the third President of the institution in October, 1945.

From time to time, new improvements have been made at Stout: remodeling class rooms, shops, and laboratories; enlarging the campus; and now, building the new library. This new building, planned to house some 80,000 volumes, is taking the spotlight this years. Students and faculty alike are superintending its construction from the sidewalks. But the new library is not the last of the improvements planned for Stout: plans are more or less completed for a new women's dormitory; redecoration of the Harvey Memorial, teachers' lounges, and the third-floor dining room; and remodeling of industrial arts shops. Many other plans are little more than hopes and dreams, but these same dreams lead to the realities of tomorrow.

The Stout Institute is still growing, and with this growth will come even better equipment to make good teachers and, above all, good citizens of the democratic world in which we live.

Construction of Harvey Hall — 1916.

1953

Clyde A. Bowman
Dean of Industrial Education
1919 - 1953

1919

A generation of students has come and gone since Clyde A. Bowman first came to our campus as Dean of Industrial Education. Thousands have come to know and love him; they have known his warm heart and revered his deep wisdom. His sons are scattered throughout the land. As the latest of them, we dedicate the 1953 Tower to Dean Bowman.

Professor Bowman and the "Nine-Area Chart," 1941 . . . Receiving the AVA Ship Citation, Minneapolis, 1951 . . . Home from convention with the "loot," 1951 . . . Dean Emeritus, President Fryklund, Dean Jarvis, January, 1953.

Bowman Hall

In 1891 a two-room, two-story building was built on the land just north of the present-day Central School. This 22 x 24 foot building was the beginning of The Stout Institute. On the first floor were the wood-working and mechanical drawing departments, and on the second floor, the sewing, dressmaking and cooking departments. At that time there were only two students enrolled in manual training and twenty-three in domestic science. The Stout Manual Training School was soon outgrown and in 1893 a larger building was built. At 4:15, Tuesday morning, February 2, 1897, fire broke out in this building and it was completely destroyed. The day after the fire a petition was circulated and signed by hundreds of citizens urging Senator Stout to rebuild the school. He agreed to do this, and the result was the 60 x 130 foot red brick building that we have today. At that time, the building cost approximately \$150,000 to build and equip. The 125 foot clock tower was erected as part of the building and stands as a lasting and fitting tribute to Senator Stout.

The building itself hasn't changed very much since then, but the name has; Bowman Hall now stands as a dedication to another great man in the history of The Stout Institute.

*The birth of The Stout Institute—1891.
As the enrollment grew, so did the building.*

Disaster!

Rebirth of the school . . .

*"For the Promotion
of Learning,
Skill,
Industry,
Honor"*

A memorial to a great man — 1898.

And on, it grew . . .

With tower high.

VERNE C. FRYKLUND, Ph.D.
President, The Stout Institute

The President

President Verne C. Fryklund assumed the responsibility of running The Stout Institute in 1946. During his administration, one of the most significant events has been the planning and building of the new library. Robert Pierce broke the ground for the new library by turning the first shovelful of dirt; this ceremony was symbolic of the new improvements to be made for The Stout Institute. President Fryklund is always looking for a way to improve the school so that the men and women who graduate can be better suited for their professions.

Another improvement has begun.

OFFICE OF THE PRESIDENT

May 29, 1953

To the Class of '53
The Stout Institute

In many ways, this past college year has been a time of great gain for The Stout Institute, its students, and its faculty. Progress has been made in the construction of our long-awaited library. New laboratories and shops are in use. Additional student personnel services are now available.

However, the year was also a time of loss. Clyde A. Bowman, Dean of Industrial Education for thirty-three years, retired from our faculty. The dedication of this year-book to Dean Bowman is our attempt to express, in some measure, the respect and pride and affection which we feel for this great educator.

From Dean Bowman's life and service to education, all of us can draw inspiration. His accomplishments in classroom teaching and educational administration are goals toward which any Stout graduate can be proud to strive. The prestige which his skill and knowledge gained for The Stout Institute and for himself is indeed worthy of emulation.

In his personal relations, too, Dean Bowman's career serves as a model to any graduate about to enter upon a career. Young teachers will do well to develop ambition, perseverance, patience, consideration, kindness, and humor. All these qualities were apparent in Dean Bowman. All of them he employed as unstintingly in the best interests of those about him as for himself.

Thus in Dean Bowman's career at The Stout Institute is a lesson for each of us. For you, as graduates ready to assume the responsibilities of democratic society, the lesson is one of challenge and of faith in the educative process. For us, the faculty and administration of the college, that lesson calls for unceasing diligence and zeal in our grave task of educating the generations of students who are yet to come.

Sincerely yours,

Verne C. Fryklund
Verne C. Fryklund
President

JOHN JARVIS, PH.D.
Dean of Industrial Education

The Industrial Education Division welcomed a new dean in January, 1953. He received the B.S. in Mechanical Engineering from the University of Wisconsin, the B.S. in Industrial Education from The Stout Institute, the M.Ed. from Wayne University, and he has done much graduate work at the University of Minnesota.

Future plans for the Industrial Education Division include further improvement of the physical plant, and continued remodeling and improvement of the shops.

ALICE J. KIRK, Ed.D.
Dean of Home Economics

The Division of Home Economics under the direction of Dean Alice Kirk will continue to modernize its laboratories on the campus and extend its program of student teaching in the high schools throughout the state. The revision of the curriculum will prepare young women as professional home economists as in the past, but emphasis will be placed upon the development of a broad functioning family-centered program to prepare students for the important profession of practical and scientific home management.

RAY WIGEN, M.A.
Director of Graduate Studies

The Stout Institute has offered work on the graduate level during summer sessions since 1935 and during the regular session since 1945 when Professor Ray Wigen became Director. In the future, Mr. Wigen believes, the master's degree will become the accepted professional standard for secondary school teachers in our nation. The graduate program prepare not only master teachers but also professional technical workers in industrial arts and home economics. Over 375 students have received the master's degree from The Stout Institute.

Staff

RALPH G. IVERSON, Ed.D.

Director of Personnel Services

Dr. Iverson's goal for the future is to better Student Personnel Services. "My office is a place where students may feel free to come with any and all of their concerns and receive professional and confidential assistance, so that they can solve their problems and their plans more intelligently." He wishes each student to receive more individual attention so that education at Stout will increasingly serve the needs of each.

KETURAH ANTRIM, Ph.M.

Dean of Women

Dean Antrim serves also as the director of housing for all women students. At present, 60 per cent of the women students live in town houses or in their own homes, and 40 per cent live in residence halls. In the future, Miss Antrim is looking forward to a residence hall large enough for all women students. The new dormitory will be built between Tainter Annex and Tainter Hall and will have recreation rooms and facilities for entertaining friends. There will be more opportunity for social life for the students at Stout.

MERLE M. PRICE, M.A.

Dean of Men

One of the numerous jobs of the Dean of Men at The Stout Institute is the securing of rooming places for the men. This year Lynwood Hall was reserved for non-resident freshman men only, and the addition of two upperclass counselors has increased the effectiveness of the freshmen's adjustment to college. Redecoration of the rooms has made Lynwood a more pleasant place to live. Dean Price is also chairman of the Union Committee and of the Committee on Loans and Employment. The objective of these committees is to contribute to the total educational experience of all students.

Chief Engineer.

Lynwood Hall has changed considerably since it was built, thirty-six years ago. Originally a boarding house for the women students of Stout Institute, it became the men's dormitory in 1930.

Lynwood Hall — 1931.

CLASSES

SENIORS

<i>President</i>		JOHN CHRISTENSON
<i>Vice President</i>		ERNEST CHRISTIANSEN
<i>Secretary</i>		BETTY JOHANSEN
<i>Treasurer</i>		LEWIS LAUSTED

As the seniors say good-bye to The Stout Institute, they will look back with fond memories on the four years that they have spent here; the proms, the tough classes, the teas and smokers, all of their "good times" will be remembered. Each year seems to have been more exciting and more fun than the last, and the years between the time when they were scared, confused freshmen and the time of the sophisticated, confident seniors have flown.

The seniors have been far from idle during their last year here at Stout. They have carried on the traditional activities which will become a part of their memories. The Freshman-Senior picnic with its potato salad, pickles, and pop was a huge, "all-school" success. Seniors proved to the "greenies" that they were fine big brothers and sisters. They conducted a tour of the town to acquaint the new students with their new home. At Homecoming time they were busy decorating the campus. They displayed heroic drawings of the members of the football team in the Harvey Hall corridor and set up the alumni booth, the central meeting place of all returning grads. They still managed to make and enter a float in the afternoon Homecoming parade. Yes, their last Homecoming will always be remembered as one of the colorful highlights of their last year.

Commencement Week was one mad whirl of festivities for the seniors. They were very busy going to breakfasts, teas, and farewell dinners, rushing home to change clothes, and speeding back to school again. The big farewell banquet was held on May 29. With all of the fun, it was a little sad to say good-bye to all the many friends and familiar places. As each student receives his diploma, he will feel sure that he has had the best training and background for his chosen profession.

JUNIORS

<i>President</i>	.	.	.	.	.	.	JOHN DEBOCK
<i>Vice President</i>	.	.	.	.	.	.	LAWRENCE STYER
<i>Secretary</i>	.	.	.	.	.	.	BARBARA HILLER
<i>Treasurer</i>	.	.	.	.	.	.	DOROTHY GARGULAK

The class of 1954 was probably the busiest on campus this year. Besides classwork, sports, and all of the other activities which the juniors participated in this year, they managed to make room for the big social event of the year, the Junior Prom. Plans were formed months in advance of the big night: committees for this, committees for that, seeing about decorating materials, checking with the janitor about working hours, and remembering about the girls who were to serve the punch. The juniors never realized just how big that high school gymnasium really was until they started to decorate it. The entire class worked very hard on the decorations and on all of the other many jobs that made a big dance such as this one a success. The enchanting atmosphere which was created by the soft music, frothy dresses, and perfume had to take a back seat for the crowning of the queen, the central event of the evening. All of the prom-goers agreed that the dance of the year was a huge success.

The juniors also displayed their artistic talent by using crepe paper streamers in decorating the high school gymnasium for the Homecoming dance. Not only did they take their share of the Homecoming responsibilities by decorating for the dance, but they also entered a float in the afternoon Homecoming parade.

It is hard to realize that there is only one more year to go before they too will be receiving their diplomas for completion of four years of work at The Stout Institute. Some of them will go out to teach, some will go into industry, and some will stay on to do graduate work, but the juniors of today will agree that every minute of time spent here has been worthwhile. They will look forward to the coming year and to seeing their old friends in the front pages of next year's *Tower*.

Physics Lab, 1916

Mr. Rich in the Physics Lab, 1953

Accuracy is Required in Both Places

At Homecoming, 1952, former students were gathered in small groups comparing, with much gesticulation and demonstration, the new labs on campus with the ones to which they had been accustomed.

The physics laboratory in Bowman Hall had undergone tremendous change since 1916. Before remodeling during the winter of 1952, equipment was stored in boxes on the tables and the floor, only to be misplaced and broken. The new cabinets that were installed have sliding doors, and each student has his own key to his compartment.

Home Management House, 1917

In 1917 the household arts students lived in the Homemaker Cottage; now the home economic students live in the "House." Household management has always been a necessary part of every girl's training at Stout. No longer does she bend over a hot wood range or carry garbage out in pails. Today, with an electric stove and its automatic timer, the garbage disposal and numerous other modern conveniences, the home management girls can prepare a meal with a minimum of effort. Through the years home-making has become streamlined.

Wanda Staehli, Home Management House, 1953

SOPHOMORES

<i>President</i>		ROBERT MOE
<i>Vice President</i>		JOELENE CHRYST
<i>Secretary</i>		DELORES SAUY
<i>Treasurer</i>		JERRY SOMMERS

The sophomores are now just at the half-way mark and are really a part of the running machinery which makes The Stout Institute tick. The sophomore class was kept very busy all year; the members were often called upon to aid in preparing for special social events. They promoted a spirit of Homecoming by decorating the streets and store windows along the main streets of Menomonie. The second year students went all out by making huge cardboard Blue Devils and wiring them onto every lamp post. Several banners spanning the street and a spotlighted full length Blue Devil highlighted the street decorations. The sophomores also had charge of decorating the football field to welcome the alumni; this was accomplished by the hanging of a huge blue and white banner which bore the Homecoming slogan on the big fence in back of the visitors' stands. Homecoming held something unusual for this year's sophomores, for the class contributed the Homecoming queen, a thing which has never happened before at The Stout Institute.

At Christmas time, the sophomore class was again called upon to decorate. This time the decorating was for the all-school Christmas dance. They changed the Stout gymnasium into a fairyland of snowflakes, streamers, and the traditional Christmas trees. The students placed the orchestra in the middle of a huge fireplace, and when they started to play, there was a warm, friendly glow about the whole room.

Besides decorating, the members of the sophomore class were kept busy in many activities on the campus. These activities ranged all of the way from intramural sports to teas given in the Harvey Memorial. The year went by so quickly it is hard to realize that they are halfway through their college careers. They know that the next two years will be just as fruitful and as exciting as the last two have been.

Foods Lab, 1916

Nutrition Lab, 1953

For Greater Efficiency and Safety

Food Study and Preparation, and Dietetics were the two courses offered the student of domestic economy in the early days of The Stout Institute. Along with the expanded choice of subjects in this area have come improved laboratories. Visitors from all over the world are impressed with the home-like atmosphere of the kitchens. However, the student of 1915 basically had the same objectives as the girl does now: the planning, preparation, and serving of nutritious food in an appetizing manner. A good meal is still the best way to a man's heart.

Woodworking Shop, 1913

From the very beginning of The Stout Institute, woodworking courses have been included in the curriculum. Shown here is a picture of the woodworking shop taken in 1913. Since that time the department has undergone major improvements for greater safety. No longer are there hazardous overhead pulleys and open belts; instead, the machines now have enclosed motors and belts and improved safety devices. Floors around the machines and walking aisles have been made skidproof. Fluorescent lighting has been installed and machine placement has also been changed for greater efficiency.

Machine Woodworking Shop, 1953

FRESHMEN

<i>President</i>	.	.	.	.	.	.	DAVID SAMDAHL
<i>Vice President</i>	.	.	.	.	.	.	MAX CISCO
<i>Secretary</i>	.	.	.	.	.	.	TERRY FRANDA
<i>Treasurer</i>	.	.	.	.	.	.	MARY PACIOTTI

A very large and enthusiastic group of young people arrived in September to become a part of The Stoute Institute. These freshmen immediately got busy and chose four very capable students to lead this, the largest freshman class in the history of the school. Bursting with spirit and full of ideas, they plunged into the roll of college students without much difficulty. Freshman Week was filled with parties, picnics, tours, and get-acquainted dates, and the freshmen enjoyed every minute of it.

The fellows started hauling railroad ties, trees, tires, boxes, and anything that would burn, weeks in advance of Homecoming. They were determined to have the biggest bonfire ever built by any freshman class. The girls gave their moral support and also supplied the fellows with doughnuts and coffee on the cold nights. Besides building the fire, the class entered a float in the parade and cleaned up after the Homecoming dance.

Early in November, there was a mixer, "The Freshman Roundup," so that all the members of this large class could get acquainted. Many new friendships began that night, friendships which will last throughout college and on into later life.

The Freshman girls in the Home Economics Club presented the annual Freshman Green Tea in Harvey Memorial. All of the people who went to the tea agreed that it was really something special.

Now that they are nearing the end of their first year of college, the freshmen are surprised that the first year has gone by so fast, for their high school days are still fresh in their memories. They will be looking forward to returning to The Stout Institute in the fall.

FRONT ROW—Kathryn Seymour, Mary Seppanen, Jean Sommervold, Nancy Wagner, Myrtle Tamura, Lois Schrader, Marie Strodthoff. ROW TWO—Doris Wandrey, Jean Robey, Charlotte Elliott, Doris Curtiss, Pat Ryan, Ruth Winter, Beverly Stomner, Janet Schott. ROW THREE—Carol Viesting, Nancy Ringquist, Sally Radey, Caryl Teasdale, Robert Tennessen, Zane Zander, Harold Thorpe, Daniel Wielgus.

FRESHMEN

FRESHMEN

Women! They're always late.

"Three Breezes and a Russell."

Machine Shop, 1919

Machine Shop, 1953

Designed for Speed and Accuracy

Stout women appreciate beautiful clothes, for after taking several courses in clothing construction, they realize and appreciate the skill that goes into the making of a garment.

There are two common terms that Stout Institute women are accustomed to hearing in the clothing laboratory, "speed" and "accuracy." The new clothing laboratory was designed with just these words in mind. The lab provides an individual working area for each girl. The blond oak units are a far cry from the heavy dark furnishings of the 1916 lab, for efficiency is the key word today.

The above picture shows the machine shop as it looked in 1919. The equipment was several years old then, and it wasn't until 1945 that new machines were purchased.

The belts and line shafting were discarded and all new motor driven machines were installed. This resulted in almost a complete modernization of the shop, so far as machine tools were concerned. Also, in 1945, the shop was converted to AC current.

In 1952 the machine tools were repainted according to modern shop standards. Upon painting of the walls and ceiling, and installing of fluorescent lighting, the modernization will be complete.

Sewing Lab, 1916

Sewing Lab, 1953

In the past, the Home Management House has been known as the "Sixth Street dormitory," "the cottage," and "the house." Once a doctor's home, it is now a place where students "learn by doing."

STOUT STUDENT ASSOCIATION

Our Representatives

<i>President</i>		RICHARD DUTHLER
<i>Vice President</i>		JACK LUY
<i>Secretary</i>		ANN ROSSMILLER
<i>Treasurer</i>		GEORGE STEPHENSON

It has often been said that The Stout Institute has one of the most efficient student governments in the state. A closer look at our governing body shows that this statement is very true.

The first major activity undertaken by the Stout Student Association was Freshman Week. Most new students will agree that their first days on campus were made very interesting through the scheduled orientation events.

The S.S.A. officers spent many hours making Homecoming time one of the outstanding weekends of the year. Working with the Stout Student Association officers, several of the coeds made new blue and white corduroy robes for the Homecoming queen and her court.

The Winter Carnival was a successful new event of the year. In conjunction with the Winter Carnival, many fellows participated in the beard growing contest. The winner of the contest reigned with the Carnival queen at the dance, which was held as a climax of the weekend festivities.

An assembly in early spring cast a new light on our campus social life. At this meeting the vice presidents of various organizations presented ideas on how better to utilize the facilities of our school building and of our dormitories. A number of new activities have been initiated already, and the S.S.A. plans to continue work on this project throughout the next year.

*Wegman, Dean of Industrial Education?
Nothing like a laugh to settle fine food.*

Epsilon Pi Tau is an international honorary professional fraternity for industrial education and industrial vocational education.

The objectives of the group are to honor the function of skill in industrial arts and vocational education, to promote social efficiency both in restricted contacts of the individual and in society as a whole, to foster and reward research, and to publish and circulate the results of this scholarly endeavor.

The upperclassmen are limited as to the number of sophomores, juniors, seniors, and graduates who may become eligible for candidacy for membership. The candidates are selected on the basis of character, scholarship, personality, and leadership in the field. Forty-seven men were initiated into its ranks this year.

During the year, a large percentage of the men journeyed to the Twin Cities area to visit schools, Stillwater Penitentiary, Dunwoody Institute, and the Honeywell Corporation, manufacturer of precision instruments.

... a Great Educator

December brought the annual Christmas party which was dedicated to Dean Clyde A. Bowman for his many years of leadership and service to the Theta chapter. On the eve of his retirement, chapter members presented Dean Bowman with a humorous biographical skit and commemorative gifts.

This year the Theta Chapter cooperated with Phi Upsilon Omicron in presenting Mr. Cecil G. Tilton, speaker from the University of Minnesota. Mr. Tilton spoke at a joint meeting of the two organizations on Far Eastern affairs, especially emphasizing the Japanese situation.

Each year Epsilon Pi Tau awards a scholarship to an outstanding male student of The Stout Institute. The choice is based upon the following criteria: contribution to growth and progress in industrial arts, social intelligence, and scholastic standing.

With the publication of the annual newsletter and the spring picnic, another successful year closed for Epsilon Pi Tau.

Mrs. Bowman, that must have been a good one.

PHI UPSILON OMICRON

Alice in Dairyland

Members use their creative ability.

We look at the officers.

The members of Phi Upsilon Omicron have worked hard this year on advancing several new professional projects. As a service project for the school, scrapbooks were made for the nursery school. The books contain devices such as buttons and zippers, to be used as learning experiences for the nursery school children.

At the annual Founders' Day Dinner, the groundwork was laid for the formation of an alumni chapter. All of the alumni in this area were contacted, and a committee began work on the organization of the alumni chapter of Tau chapter of Phi Upsilon Omicron. When the final plans were completed, the alumni chapter became a reality at the installation in May.

The coeds on our campus were fortunate in being able to meet Alice in Dairyland. Beverly Ann Steffen, who is the 1952 Alice, visited our school in March. She spoke briefly to the girls and a reception was held in her honor in the Harvey Memorial.

Through joint meetings with E.P.T. and the Home Economics Club, the activities and interests of Phi U members were integrated with other professional organizations on campus.

The Eta Kappa chapter of Alpha Phi Omega, the only service fraternity on the campus, had a very successful year in carrying out its service program.

The members rendered service in these fields: service to the student body and faculty, service to the members of the fraternity, service to the youth and to the community.

Fraternity members guided small groups of freshmen and transfer students on their "Tour of the Town." Then as the football season rolled around, A.P.O. members ushered at all of the Stout home football games. All Homecoming parade spectators will remember the graveyard scene depicted by A Phi O members. This float was voted the most humorous in the parade.

A new service project, laminating cards for the various clubs and fraternities on campus, was started shortly after the second semester got under way. Then as the semester drew to a close, A.P.O. was all set for senior commencement and baccalaureate with a fine group of ushers assisting in making both of these events a success.

Dig in, Doc Salyer.

Welcome to our fraternity, Kent.

*Admirable Crichton
Backstage with Sam*

The objectives of the Manual Arts Players chapter of Alpha Psi Omega are to develop an appreciation and interpretation of drama, to provide opportunities to attain skill in staging dramatic productions, to provide a recreational activity which may serve as a preparation for future vocational or avocational work, and to contribute to the cultural aspect of college life. M.A.P. has fulfilled all of these objectives in their production of two major plays this year.

"Kind Lady," a mystery thriller, was presented in November, and "The Admirable Crichton," a fantasy, was the choice for the spring production. Besides these major productions, the members work backstage on all lyceums, assemblies, and all types of performances presented at Stout.

Each year M.A.P. plans to attend a neighboring college production and also a professional production in Minneapolis. Two honors are given annually by the M.A.P. An award is given to an outstanding student in the field of dramatics, and another is presented to a graduating member. The name of this recipient is then engraved on the honor plaque.

ARTS AND CRAFTS

Sedan Chair Special

With the new general mechanics shop at their disposal, the Arts and Crafts Club members have increased incentive to undertake numerous interesting projects. During their Monday night work meetings, the members use the well equipped shop to turn out attractive lamps, tooled leather purses, gun stocks, and plastic projects.

Membership is open not only to students but to faculty members as well. The club objectives are the worthy use of leisure time through the medium of hobbies and the promotion of skill and honor.

This is also the industrious group who has the privilege of carrying the queen's sedan chair in the annual Homecoming parade. Other activities of the club include the Fall and Spring initiation parties and the all-important Spring Picnic, where silver and gold keys are presented to members who merit these achievement awards.

The club's addition to the school social calendar is the annual card party where winning players are recipients of unique prizes made by the club.

Club officers plan card party.

Duf gives advice.

BOW HUNTERS' CLUB

Modern Hiawathas

Steady, Eugene.

"Now, this is the way it works."

Bow Hunters is a fairly new organization. It not only provides practice for the very experienced bowmen but also instructs those who are just learning.

Although they were a very small group this year, they worked very hard. Last spring they put on an archery tournament and presented gold keys to the expert marksmen.

At the January graduation the Bow Hunters suffered their greatest loss. But in spite of this, they were busy in the spring getting more students interested in archery and trying to fill the places vacated by the graduating seniors.

The bales of straw were brought out into the gymnasium every Wednesday night and the archers practiced for the opening of the deer season. The season opened in early September before the regular rifle deer season. None of the Bow Hunters were lucky enough to bag a deer—they got good shots but didn't succeed in winning the whole battle. The goal of the bowman is to get a deer, for this gives him the honor of receiving a diamond mounted on a gold key.

Organized in 1949, the Dietetics Club strives to acquaint other students with the field of dietetics and to raise the nutritional knowledge of the students. The club sponsors Nutrition Week each year to bring good nutrition to the attention of the students.

This fall the members attended the American Dietetic Association Convention in Minneapolis, where they had an opportunity to observe and discuss some of the problems of the profession. They also saw the various types of equipment and food preparations used in food service institutions.

Every Christmas, the Dietetics Club solves the gift shopping problem at Stout by selling luscious fruit cakes. The proceeds from the sale are used for the professional activities in which the club participates.

The senior banquet this spring was held at the Lowell Inn in Stillwater, Minnesota. This was not only a pleasurable trip, but the girls also observed the direction of a food service unit.

Jeanette pours a cup of tea.

Don't they look professional?

Helping Santa make Christmas cookies.

Increased interest has been shown in the Home Economics Club this year. The club sponsored many activities in which all members could display their talents.

The first get-acquainted dance of the year was sponsored by the Home Ec. Club. This was held after the all-school picnic at Wakanda Park.

The Christmas cookie sale was a new project that was undertaken this year. The members made festive Christmas cookies and packaged them in gay holiday wrappings.

The activities of the year concluded with the Senior Breakfast held on the last Sunday of the school year. At the event, the Home Economics Club honors all senior women.

The Stout Home Economics Club participated in the College Club State Meeting and in the regional meeting held at Chicago. Next year will be a busy one for all Home Ec. Club members, the State Convention will be held on our campus.

RIFLE CLUB

It's a Bull's Eye

The Stout Institute Rifle Club, a chapter of the National Rifle Association, is one of the few Class "A" college clubs in America.

The aims of the Stout Nimrods are to encourage safe shooting habits among the students of The Stout Institute and among the citizens of the community. It is the further aim and purpose of this club to forward the development of those characteristics of honesty, good fellowship, self-discipline, team play and self reliance which are essentials of good sportsmanship and the foundation of true patriotism.

During this past year the organization sponsored and participated in many school activities: campaigning for the safe use of firearms, sponsoring individual all-school shooting matches, instructing the youth of Menomonie in the proper method of marksmanship, entering into team competition with other colleges, providing the color guard for the Stout marching band, and sponsoring a county-wide turkey shoot.

The only prerequisites for entering the club are an interest in increasing one's knowledge of firearms and an interest in improving one's shooting ability.

*Glen shows them how it works.
All eyes on the target.*

SKI CLUB

Down the Hill on Hickories

Herb's telling one of his ski stories.

It's a long way down.

The Stout Ski Club is one of the organizations on the Stout campus that provides the students with much enjoyment and healthy activity.

At the Ski Club meetings, the members of the club discuss the various topics which help them to increase their abilities on the slopes of Deepwood. Deepwood is the first home of the Stout skiers, and many spend every Saturday and Sunday on the slope, at least while there is still snow on the ground.

Five members of the club, Carolann Hammersten, Herb Pringle, Carl Berthlein, "Corky" Collette, and Darrell Premo, ski on the Deepwood Ski Patrol. This ski patrol supervises the trails and make sure that things are running smoothly and that no one has run into trouble.

Many Stout students have discovered for the first time this year just how exhilarating skiing really can be, for they have shared in the thrills and spills of the sport while riding the "hickories" at Deepwood.

Cooperation between educators and the craftsmen; a rounded background of related information on the graphic arts subjects; work under trade and professional guidance; opportunity for leadership training; promotion of social activities among all of the crafts, and affiliation with the National Graphic Arts Association—these are the main objectives of the Stout Typographical Society.

Classified as a professional organization, S.T.S. is open to students majoring in printing who have completed the equivalent of at least two courses. Membership is classified into three degrees: apprentice, journeyman, and master. Advancement through the stages is based on technical study and examination.

Special activities for the year included a print shop open house held in January to celebrate National Printing Education Week; a five hundred mile field trip through the Fox River Valley area; an award given to an outstanding senior member at the Awards Day Convocation, and as a climax, the "Wayzgoose," the annual S.T.S. spring picnic.

Officers survey the business.

*We'uns, Jane and Laz, invites ya.
Flash at the formal initiation.*

This was the first full year that A.S.A. has been a national sorority. After pledging, the first big task was that of organizing a Home Nursing Course, sponsored by the Red Cross. The annual mum sale at Homecoming was a huge success, and much time and work went into the making of the most beautiful prize-winning float.

In February, Alpha Sigma Alpha sponsored Sadie Hawkins Week, which included a candy sale, St. Valentine's Tea, and the Sadie Hawkins Dance. Many girls have silently thanked A.S.A. for Sadie Hawkins Week.

At the F.O.B. Stunt Nite, the members created a fairyland of flowers that danced to "Une Nuit de Fleurs" — one night of flowers. Alpha Sigma Alpha observed Founder's Day in November.

A.S.A. members further their spiritual development by attending church as a group once a month. They also contributed to the National Philanthropic Fund for the rehabilitation of veterans in U. S. hospitals.

This year was the Golden Anniversary of Alpha Sigma Alpha. The convention held at Roanoke, Virginia, was attended by the chapter president. The year's activities closed with a dinner dance at the Country Club.

ALPHA SIGMA ALPHA

HYPERIAN

What'll You Have?

Yellow sweaters with a black Eta Sigma Omega symbol distinguish the members of the Hyperian Sorority. Pledging activities, homecoming, performing social service, and banquets provided these girls with a busy and eventful year.

Contributing stuffed toys to orphans is an annual social service done by the Hyperian Sorority. Another Christmas activity is the selling of Christmas cards. This year's card was a block print of the Stout tower.

"February Frolics," the Hys' dance, was cleverly decorated in the theme of the month's holidays. The traditional tea of the Hyperians, Ye Old Heidelberg, with the informal atmosphere of its famous namesake, again proved to be very popular.

Banquets throughout the year highlighted special occasions. A breakfast for the alumni marked Homecoming festivities. March 19, the thirtieth anniversary of the founding of the sorority, was another highlight of the year. The year's activities closed with a farewell dinner for the seniors, leaving many pleasant memories with the girls who are graduating.

Nancy and Dick, just pure enjoyment.

PALLAS ATHENE

Roll 'em, Boys, Roll 'em

The good old days of 1920.

"A Little Bit O' Blarney."

"Just traveling along, singing a song, side by side." The P.A.'s progressed through the school year in just such a way. The year included meetings, rushing parties, serenades, work meetings and social functions such as celebrating Thanksgiving, Christmas, and Founder's Day. The phrase quoted above was from the 1920 song, "Side by Side," which was the finale of the Pallas Cabaret skit given for the student convocation.

The girls participated in their annual affairs, the Snowbrawl held on the eve of the Winter Carnival, the Easter candy sale, the May Day Tea, and the dinner dance at the Country Club. With their "A Bit of Blarney," they took first place in the annual F.O.B. Stunt Nite program.

Something new in the schedule this year was the day-long trip to the Cities. Shopping and seeing the operetta "Carrousel" was the order of the day. In order to further good feelings among the student body, the P.A.'s sponsored an open house in the gym.

Behind all of the activities lies the objective of the Pallas Athene sorority: to develop social poise and ability among the members.

The Sigma Sigma Sigma Sorority has completed its first year of national affiliation. A dinner dance was held at the hotel on March 21, celebrating the first anniversary.

Social service ranks high among the sorority's activities. They assisted in a national money-raising project for polio research; at Christmas time placecards and favors were made for hospital patients; a huge box of food and clothing was given to a needy family in the city; a collection of books was given to a children's hospital; and one of the best projects was the making of cartoon scrapbooks for hospitals.

As the Tri Sigmas realize, it not only takes hard work, but it takes money to sponsor activities, so "Operation Money" has been the goal. An annual Christmas sale of cards, wrappings, and gifts is held, and throughout the year the members are constantly on the alert for stocking buyers.

"To the Sea in '53" is the motto of the sorority, for a national convention is to be held on the Essex-Sussex, New Jersey. A tour of New York and Broadway will highlight the trip.

Jeanette from outer space.

Spiced tea, the specialty.

Mixin' it up.

Pink Tea for the team's mothers.

The Intersorority Council is made up of the president, secretary, and advisor of each sorority, plus Dean Antrim. The Intersorority Council's aim is to develop co-operation among the sororities. The officers for this year were Bea Anderson, president, and Jan Waseen Johnson, secretary-treasurer. Jan left school at the end of the semester and her office was taken by Joan Fairweather.

Every year the group sponsors two rushing parties for eligible girls. One is held in the fall and the other in the spring. These parties are given for the purpose of acquainting girls with the different organizations.

Besides the rushing parties, the Council also sponsors the Intersorority Christmas Formal. This eagerly awaited event used "Crystal Bells" as its theme this year. Another event sponsored by the Council this year was the Intersorority Record Hop.

The girls find the Intersorority Council a very useful organization, for it provides a chance for all the sororities to work together and promote better relations throughout the school.

DELTA KAPPA

Jezzes off to Sigma

The Sigma fraternity is now part of a national fraternity which promises to be the largest organization of its kind in the country. In the 1952 Sigma joined hands with many other local fraternities to join Delta Kappa; since that time numerous other chapters have been incorporated and the scope now includes every state in the United States and her protectorates.

But nationalization has not altered Sigma's social or service functions in or around The Stout Institute. A Christmas party, the fraternity dinner dance, intramural competition, and a pre-prom dinner are all a part of the Delta Kappa Sigma social program.

As for services, well, you have all probably seen those big red coffeepots at the football games. The selling of this coffee at games, and Thanksgiving baskets, as well as ushering at plays and S. S. A. representation, all add to your comfort and welfare. All of the members of Delta Kappa Sigma are looking forward to another year of fun and service with their fraternity.

Signing 'em in.

ROW FOUR: Robert Popovich, James Toms, John Christensen, Guy Shramm, John Debrauske, Ken Pietenpol, Willis Bogenhagen, Al Loew.

PHI OMEGA BETA

Little Brown Jug

My! Don't we look sharp!

*Where did you learn to shine
shoes, Woody?*

Phi Omega Beta is the oldest men's organization at The Stout Institute. It now has the distinction of being the only local men's organization on the campus. The F.O.B.'s take an active part in all of the school activities, showing a major interest in sports of all kinds. 1953 saw the F.O.B. intramural basketball team win first place in competition as well the much advertised "Grudge Game" with the Phi Sigs.

This year the organization revived the football rivalry with Eau Claire State over the Little Brown Jug which was presented to the winning team, our own Stout gridders.

The biggest affair of the year was the F.O.B. sponsored Stunt Nite. Duffy's Tavern Dance and the fraternity dinner dance were also events eagerly anticipated by everyone. The F.O.B.'s also made a cash award to the outstanding athlete of the year.

Something new has been added to the organization this year. Each member has a black shirt with a white monogram above the pocket. The F.O.B.'s are very proud of their shirts, and rightly so.

There is a new name on the Stout campus—Phi Sigma Epsilon. It was formerly the K.F.S. fraternity, which went national late in the spring of 1952. It is essentially the same fraternity with the exception of the name, fraternity colors, constitution and a few other changes.

With the change in name came a slight change in the traditional wearing apparel for the fraternity. The blue sweater and black bow tie gave way to the white shirt and red western type of tie. However, the straw hat and cane hold their respectful position in the P. S. E. wardrobe.

The Phi Sigma Epsilon has been active on the campus since 1931 when it was organized to promote knowledge, friendship and social life for men.

Under the president, Howard Heigl, the year has had many highlights. During the first semester there were the alumni breakfast, pledging of nine new members and the Dads' Day Dance following the homecoming game. The second semester featured the addition of five new members, the F.O.B.—P.S.E. Grudge Game, and the Phi Sig Dinner Dance.

Can't you find it, Joan?

The end of Hell Week.

PHI SIGMA EPSILON

Wardrobe Change

Doc's back for "seconds."

"God Rest You Merry Gentlemen."

With the "Rose of Sigma Tau" formal, the Alpha Kappa Chapter of Sigma Tau Gamma highlighted the school's fall social calendar. Sig Tau also sponsored the men's smoker in January. Aside from all-school functions, however, the organization had many social events that were limited to members of the fraternity and their dates. Among these were the Pre-Prom Dinner, the night of the Junior Prom, a hayride party, a card party, and a movie party.

Cooperation, consideration and character are three words which symbolize the objectives, scholarship, leadership, and citizenship, of the Sigma Tau Gamma Fraternity.

Members of this fraternity are chosen from the men students of The Stout Institute who are well rounded in their interests, activities, and personalities, and who are seriously determined to make the most of their chosen profession. The blue and white helmets and shields and the gold swords identify the pledges of this fraternity. After Hell Week these fellows become full fledged members of the Sigma Tau Gamma Fraternity.

"S" CLUB

A Day for the Fathers

The "S" Club is the official agency of varsity athletics. Membership is open to all athletes who receive the major letter "S." By promoting varsity participation, the club encourages the building of character and personality in all who participate in athletic competition. The club also encourages a healthy mental attitude toward athletes by students and faculty here at The Stout Institute.

The Dad's Day program is perhaps the most important function of the "S" Club. This is the day when the club welcomes to Stout all the fathers of our football players and sponsors of players acting for fathers who cannot come. Mothers are also honored on this day and a special program is included for them.

Other activities of the club are the all-school carnival and the intramural programs. The intramural program is the club's means of seeing that the entire student body may have an opportunity to participate in physical education.

The "S" Club strives to uphold the principles and practices of clean living, clean sportsmanship, and hard work and study which is the basis of a sound athletic program.

In Honor of Dad.

Halftime lineup.

Up and over.

"Don't get rough with me!"

The W. A. A. provided the Stout Campus with the most successful social event this year. The Gymjam, held in February, made available to those students attending, all of the sports equipment in the Stout gym. Bowling, volleyball, and pool were the most popular sports of the evening. Students expressed their desire for more of these events throughout the year.

Through an extensive campaign by the W. A. A. members, Jody Bain was crowned queen of the 1952 Homecoming festivities. The campaign, with its pep rallies, clever posters, and general enthusiasm, was one which has not been equalled on the Stout campus. Not all of the energy was spent on the campaign, however, for hours were spent on making a float for the Homecoming parade.

Members of W. A. A. participate in organized sports every Monday and Tuesday evenings. By participating in these sports, the members earn points toward a W. A. A. emblem and a letter "S." Members of the original club, a hiking club, had to hike 100 miles in one school year for their letter.

... the Gym Jam

Five members attended the yearly convention of the Wisconsin Athletic Federation of College Women held at Lawrence College in Appleton. The same number of members participated in a college play day at La Crosse.

W. A. A. also sponsored other social activities. With the co-operation of the "S" Club, the organization introduced the freshmen to the sports activities at The Stout Institute by sponsoring a Sports Spree during Freshman Week.

The annual Sports Hour Tea was held in April. An informal atmosphere was created by the use of sports equipment as decoration. This increased its popularity among the male students.

If it weren't for W. A. A., many loyal Stout football rooters would be hungry supporters of the team, for the W. A. A. faithfully sells hot dogs at each home football game as a money making project. As the treasury grows, so the hopes of the W. A. A. members grow. Perhaps next year they will be able to sponsor at Play Day here at Stout.

STOUT CHRISTIAN FELLOWSHIP

Hidden Treasures

Songfest.

Follow His way.

Promoting the study of religion and the Bible and promoting Christian fellowship among religious denominations are the chief aims of the Stout Christian Fellowship.

Every Sunday evening the S. C. F. holds a supper hour followed by Bible study. Passages are chosen from the Bible for discussion by one of the members of the group.

"Christian fellowship" is the keynote of all the campus activities. "God and the Atom," "Hidden Treasures," and "Mr. Texas," the story of Evangelist Billy Graham, are a few of the movies shown to the student body at assembly programs.

An activity which is new to the group this year is a prayer meeting which is held every noon for five or ten minutes.

The group feels that Christian fellowship is a continuing process, not something for just nine months of the year. The Interdenominational Christian Fellowship, a national group with which the local group is affiliated, sponsors two camps during the summer months, "Campus by the Sea" and "Campus in the Woods."

Through the Big-Little Sister campaign, the Young Womens Christian Association introduces freshmen coeds to upperclass women at The Stout Institute. The climax of the project is the Big and Little Sister Tea, which was held the first Sunday of the school year. In February a reunion was held in the Harvey Memorial to renew acquaintanceships.

Christian service is the main objective of the members of Y.W.C.A. Therefore, most of their activities throughout the year include some service to others. At Christmas and Easter they donated a basket of food to a needy family in the city of Menomonie. The Christian spirit of Christmas and Easter is felt more keenly through the vesper services held by the "Y." They also add to the festivity of the Christmas season by trimming the trees which are placed in front of the Harvey Memorial.

The Mother-Daughter Banquet held in the spring is the real highlight of the year. This event provides an opportunity for the mothers of women students to visit the campus.

Hang 'em straight, Donna.

THE STOUTONIA

Is it a Scoop?

Editor FRANCES OBERPRILLER

Managing Editor COLLEEN CEMINSKY

Business Manager MILTON BENNER

Production Manager RONALD JOHNSON

Monday evenings at 5:00 is "newcast" for the *Stoutonia*, also business meeting time. During the "newscast," class and campus events are discussed and assigned to the reporters for the coming issue. The business meetings include a variety of items such as the selection and election of new staff heads and where to go on the field trip or the spring banquet.

The *Stoutonia* staff is made up entirely of students, and every step of production—writing, editing, printing, and circulation—is their work. The prime membership requirements are interest and sincerity.

Special activities included a field trip on December 13, 1952, to the Minneapolis *Star* and *Tribune* plant and the WCCO Radio and Television station. An Awards Day gift was given to a deserving member, and in the spring the free banquet was held for all staff members.

Colleen Ceminsky, who served as the very capable associate editor for the past year, will be chief editor of the *Stoutonia* for the coming school year.

Under the masthead motto, "The *Stoutonia* is more than just a newspaper—it is an educational experiment," the *Stoutonia* has grown to be an important part of student life on the campus and a living symbol of The Stout Institute to the alumni.

DONALD WALTERS

Art Editor
MILTON BENNER

How many students at The Stout Institute are aware of the time, labor, and effort that go into the publication of the *Tower*? Perhaps the rest of this story will give an insight into how the *Tower* is put together.

Already last year, in the spring of 1952, plans were made concerning this year's book. Early in September with the advice of Art Editor Milt Benner, the book was drawn up in dummy form. From the time that Chief Photographer Jerry Duncan and his men set foot on the campus, flashbulbs went off in some of the most unexpected places. As a result, the 1953 *Tower* has a very complete pictorial coverage of events, as they actually happened.

Perhaps some think that the work of the staff at this point had neared completion. How wrong! Just ask Production Editor Donald Walters. Each picture had to be scaled to fit its designated spot in the dummy. To save the student body money, discount dates were met each month from November to March.

Each picture then had to have a caption to identify it. Few realize how many hours are spent in dreaming up something appealing. Next came the copy; this had to be written and rewritten so that each word was just right, for it had to pass the inspection of Literary Editor Norma Schlottman. And how many of these stories are ever read? Most people won't have read far enough to answer this question.

Another thing few students notice is the lack of advertising in the book. To achieve this, the *Tower* published the *Student Directory*, which includes the advertising. The Business Manager, Dufur Peters, and his force tramped the streets during the first quarter, collecting for those ads.

What is a ship without a captain? What is the *Tower* without Editor-in-Chief Hazel Nelson? Hazel has the immense job of keeping the publication rolling. From the very beginning of the year she has been here and there, helping someone write a story, fitting copy, and scaling pictures. She is the one who keeps the work flowing smoothly, so that the book you now hold in your hands could become a reality.

ROW FIVE—Judy Day, Caryl Teasdale, Betty Steiner.

Band Excels in Maneuvers

Under the able leadership of Mr. Victor Hardt, the Stout band grew, maybe not in size, but certainly in activities. The fall was busy for the band. As usual, they made a good impression during the half-time maneuvers on the football field. Homecoming was the high-light of the year; the climax came with the formation of a large crown for the Homecoming queen's presentation. Of course, the band participated in the torchlight parade and also in the Saturday afternoon parade.

The band was invited to march in the Dairy Day parade here in Menomonie. This year the American Legion had their convention in Menomonie and asked the band to participate in the activities.

The marching band accompanied the football team to La Crosse and they were planning to travel to Superior, but because of the cold weather, the trip was canceled.

With the completion of the football season, the band cut two tape recordings of marches and concert music to be played over the local radio station.

Then came preparation for the Christmas concert which included the Symphonic Singers, the Girl's Glee Club, and the Stout band. The concert was given for the public as well as for the student convocation.

After word had gotten around that the band would be going on the week's tour with the Symphonic Singers, everyone settled down to some intensive practicing to prepare for both the tour and the concert that was given March 3.

There was a pep band at almost all of the home basketball games, ready to play some lively marches. When the pep band wasn't there, the German band provided the music.

FRONT ROW—Dorothy Brownell, Dorothy Belisle, Lois Schrader, Mary Betzel, Carol Koch, Delores Sauvey, Carole Tickler, Mimi Miller, Charmaine Chopp, Vivian Barnhart, Janet Benedict, Darlene Neas. STOUT SYMPHONIC SINGERS

Voices in the Night

Frolicking fingers.

Christmas serenade.

With a brand new director, Mr. Hardt, and new music, the Symphonic Singers started rolling again. Any Monday or Wednesday you can hear snatches of beautiful choral music that drift out from Room 29.

The fruit of all of this practice showed up at the annual Christmas concert which was given to the student body as a convocation and to the townspeople at night. Highlights of the concert were the songs, "Twelve Days of Christmas" and "As Lately We Watched." This last song was done with instrumental accompaniment which added much to the beautiful effect of the choir's blended voices.

Second semester found this group working hard to prepare for the Spring Concert and for their big tour. The tour lasted five days and took the group as far as Chicago, with stops at high schools in Minnesota and Wisconsin.

In their last appearance of the year, they sang at the baccalaureate service during Commencement Week. The choir presented their musical farewell to the graduating class, and another year had ended.

At the beginning of the year, the students of The Stout Institute walked into convocation, heard some beautiful organ music, and some of them—mostly freshmen—wondered who was playing the organ. To the returning students, the answer was very simple, for Dorothy Messerschmidt has been the college organist for the last three years. At odd hours of the day, one can hear the strains of organ music seeping from around the doors of the auditorium; Dorothy is practicing. If a student slips in and sits down, he is royally entertained with an impromptu concert, courtesy of Dorothy.

Associated with the music department of The Stout Institute is the Girls' Glee Club. This year it consisted of approximately thirty-five members. Months before the annual Christmas concert, the girls were busy practicing. When the curtain was drawn on the night of the concert, we saw the girls grouped around a fireplace, relaxed on the sofa, and some gathered around a piano. The job was so well done that when the girls started to sing Christmas carols, more than one person felt a little tug of homesickness.

Organ interlude.

Firelight reveries.

Nelson Field has seen many changes since 1935. Football was played in the daytime on what is now the practice field. There were no lights, no press box, no electric scoreboard. The athletic field has been greatly improved.

Nelson Field, 1935

SPORTS

Stilp gets the word.

FOOTBALL

Into Battle . . .

Jack Wink completed his first year as head football mentor at The Stout Institute on the tail end of a 1 win, 1 tie, and 6 loss record. Although this is the way the season records were entered into the record books, it gives no indication of the great handicaps the coach overcame when he molded a new squad and introduced them to a new style of play. This record also gives no indication that in the period of one short year, Jack Wink has become one of the best liked men on the Stout faculty. We have no doubt that in the years to come, Jack Wink will build teams that will win state championships and make the school justifiably proud of a great coach.

Great Lakes	7	Stout	2
Stout	6	Winona	6
River Falls	21	Stout	0
La Crosse	14	Stout	6
Stevens Point	27	Stout	0
Stout	35	Eau Claire	0
Superior	33	Stout	26
St. Cloud	39	Stout	21

Wink's reserves.

Great Lakes—7, Stout—2

Stout's football season opened in a driving rainstorm as they met a powerful Bluejacket team from Great Lakes Naval Training Station. The only touchdown scored in the game came when Great Lakes capitalized on a Stout fumble to score in the third minute of play. The Navy team, with a star-studded lineup from the Big Ten and from the Ivy-League colleges, was unable to puncture the Stout defense after the first period, so the second half went wet and scoreless. This was the greatest defensive game of the season, with special laurels going to George Krall who broke through the Bluejacket's line to score the safety.

Stout—6, Winona—6

In the first road game of the 1952 season, played at Winona, the Bluedevils repeated a mistake that they had made a week before. A Stout fumble on the first play of the game gave the Warriors possession of the ball; this resulted in a touchdown four plays later. Stout's tally came late in the third quarter when, after a long drive downfield, Red Walker plowed over for the touchdown. Krall's conversion hit the goalpost and fell short, thereby eliminating Stout's chances of winning the ball game. The defensive unit showed up very well, but the game was inconsistent from the offensive standpoint.

Oops!

River Falls—21, Stout—0

In the first conference game of the 1952 season, the Bluedevils were beaten 21 to 0 by a highly inspired Falcon squad. The Falcon's first T. D. came when Burgoyne completed a 19 yard pass late in the second quarter. Burgoyne again broke into the scoring column in the fourth quarter, along with Murphy, to complete the 21 point total.

The game was characterized by very strong defensive work by the Bluedevils, which was able to hold offensive teams to an 11.3 average for three games.

Steele's roarin' mad.

Blue Devil huddle.

Tackle by Eau Claire.

This game again showed the weaknesses of the Stout offensive unit which had scored only eight points in the same three games. Kieffer, Walker, and Van Buren had been carrying the brunt of the ground attack, but the ball handling in crucial moments was not up to par and this was the main reason why the hopes of the Stout fans were shattered.

La Crosse—14, Stout—6

Stout traveled to La Crosse to tackle the Wisconsin State College Football Champions. Wink's men appeared to be coming out of their slump as they battled a team which was a two touch-down favorite. Red Walker repeated his performance of the previous year as he scored the only Bluedevil touchdown early in the third period. As in the three previous games, the Indians were able to capitalize on the breaks as they scored early in the first quarter. The other La Crosse tally came late in the second period.

Widmar and Woelfer, closing in.

Keiffer around end.

Stout's grid men appeared to be a newly inspired team as they outplayed La Crosse during the entire second half.

Stevens Point—27, Stout—0

Stout's football prospects hit the lowest ebb of the entire season as they were defeated 27 to 0 by the Pointers at Stevens Point. The Blue-devils seemed to be wearing boxing gloves and walking on wet cement, as the Pointers took advantage of Bluedevil mistakes to score in all but the first period, with two tallies coming in the fourth period.

Stout—35, Eau Claire—0

Rising from defeat, the Stout team pleased Homecoming fans by beating the Eau Claire Blugolds here at Nelson Field. Stout was the first team to win the F.O.B. Brown Jug.

Stout's first touchdown came early in the second period as Kieffer scored after a long drive which ended on the one yard line. Stout next

To the rescue!

Get that man!

1952 GRID SQUAD

FIRST ROW—Don Ritt, George Krall, Lloyd Woodmansee, Bill Kieffer, Lew Lausted, John Widmar, Jo Stebley, Karl Turk; Al Loew, Don Steele, Mark Reimers. SECOND ROW—Gerald Henderson, Ed Baxter, Ken Lamkin, Len Olund, George Van Buren, Leo Janis, Rueben Ramos, Max Cisco, John Walter, Dick Kasel, Bob Moe. THIRD ROW—Clarence Lamers, John Oakeson, Red Walker, Ron Wilhelm, Neil Hoephner, Roland Litchfield, Don Woelffer, Jim Aumann, Jim Nadian, Steve Hansen, Bob Popovich. FOURTH ROW—Coach Jack Wink, Tom Stilp, Gale Woelffer, John Debrauske, Augie Schultz, Lawrence Styer, Bill Buckley.

Captain Red.

made use of a Blugold fumble as Stilp passed to Steve Hansen on the 35 yard line and Steve ran the rest of the way for the T.D. The third score was a repeat performance by Bill Kieffer, as he plunged over after catching a lateral from Tom Stilp on the four yard line. Just before the gun went off at halftime, Neil Hoepfner caught a pass from the magical right arm of Stilp to make the score 28 to 0 at halftime.

Play slowed down during the third quarter with neither team gaining yardage. Early in the fourth period, George Krall recovered a Blugold fumble and freshman fullback Jim Aumann scored from the one yard line.

The outstanding player of the game was Tom Stilp. Playing with numerous injuries, Tom was able to score five conversions and complete seven passes for a total of 118 yards and two touchdowns.

Superior—33, Stout—26

In an afternoon game at Superior, the Blue-devils came out on the bottom of a 33 to 26 decision, playing in the coldest weather encountered all season.

The outstanding play of the game was a 65 yard touchdown run by freshman halfback Don Ritt. This play resulted in the first touchdown for the Stout gridders. Other Stout men to break into the scoring column were Red Walker, with two touchdowns, and George Van Buren, who scored early in the second half, much to the displeasure of his hometownsmen.

St. Cloud—39, Stout—21

In the final game of the 1952 season, Stout played the Minnesota State College Champions in the annual Dad's Day game. With their dads

rooting for them from the bench, the Bluedevils fought their hardest. All of the Bluedevil scoring was done in the first half, with Red Walker accounting for one touchdown and Steve Hansen, who played his best game of the season, scoring twice. The Stout gridders led at the half 21 to 13. In the second half, the Huskies seemed to be able to score at will, for they racked up 26 points to beat the Bluedevils 39 to 21.

As a finale to the 1952 season, the team elected Tom Stilp as the most valuable player and Ronald (Red) Walker as the honorary team captain. Red Walker won an all-conference berth as fullback and Don Steele held down an all-conference end position.

As we look back on the 1952 football season, the students of The Stout Institute should feel proud, for the team fought hard and clean in an effort to bring honor to the school.

Superior racks up two points.

The 1952-1953 edition of the Stout basketball team wound up the conference season with a not too impressive ninth place finish and a 2-10 record. Winners of their initial conference start at Eau Claire by an 83-81 count; the Blue-devils had to wait until they beat the Oshkosh Titans 78-71 at Menomonie for their second conference win.

The Bluedevils, however, played vastly improved ball during the second half of the schedule, as many of the games were hard fought and closely contested. The team played good ball in spurts, as witnessed by the first half leads over La Crosse and Eau Claire late in the year. Lack of experience and strong reserve strength plagued the Stout team throughout the season as Coach Ray C. Johnson finished the season with only two seniors, two juniors, and eight freshmen on the squad.

BASKETBALL

Speed and Spirit

Denny sneaks one in.

What are we doing wrong, Coach?

St. John's—78, Stout—68

The St. John's Johnnies of Collegeville, Minnesota, spoiled the season opener for Coach Ray C. Johnson's edition of the 1952-1953 cage quintet as they won out by a 78-68 count. The Bluedevils showed up well considering the fact that only three lettermen, Don Steele, Bill Kieffer, and Bob Moe, opened the game. The Stout five enjoyed a short lived lead during stages of the third period and had the Johnnies worried until four Bluedevils went out via personal fouls late in the contest. Bill Kieffer, veteran senior forward from Hastings, Minnesota, led the scoring with 17 points.

Everybody's in the jump.

Big Chuck takes to the air.

*Up in the air with Eau Claire.
Stewart tries for a neat one.*

"Let me out of here," says Bruce.

Carleton—89, Stout—49

The Bluedevils played the ever tough Carleton five at Northfield, Minnesota, on the night following the home opener against St. John's. The Carls displayed a team long on speed and scoring punch as they got off to a fast start and held the lead throughout the contest. Kieffer again led the scoring for the Bluedevils with 14 points.

St. Mary's—84, Stout—64

St. Mary's and Pat Costello played the Bluedevils at Menomonie on December 6 and recorded an 84-64 triumph. The always strong Redmen put on a terrific shooting display as they completely dominated the backboards. Costello hit five baskets and nine freethrows for nineteen points, playing slightly more than half the contest, while Steele hit 14 points to pace the losers.

Winona—85, Stout—68

The Bluedevils played their last non-conference warmup when they traveled to Winona to play the Winona Warriors. Even though Steele and Moe both hit the twenty column in scoring, the Bluedevil cast was forced to yield by an 85-68 margin. Much blame for the loss can be attributed to an injury suffered by Tom Stilp, the senior guard and top Stout ball handler. With Stilp out of the contest in the first half, the Warriors employed a five man press that had the Stout quintet reeling. Lingenfelter and Lee, a couple of good centers, led the Warriors to victory by counting 42 points between them. These games seemed to serve as a wire spring for the team, for they were ready for this next one.

Woody's dropping it in.

Stewart's trying for that big one.

Stout—83, Eau Claire—81

Stout opened its conference season at Eau Claire and came out with a thrilling triumph over the Blugolds. Trailing the first half, the Bluedevils suddenly came to life and scored thirty points in the third period. Moe's 23 points paced the victors, while Kieffer and Steele had 20 and 19 respectively.

Stevens Point—78, Stout—61

The fastbreaking Pointers proved too much for the Stout cagers as they swept to a 78-61 triumph. The Bluedevils, however, did play better basketball than the night before, even though defensive lapses cost numerous Point baskets. Tom Stewart broke into the lineup and racked up twelve points, trailing only Kieffer's game high total of 23.

Stout—58, Winona—54

The Bluedevils took their second win of the season when they defeated the Warriors of Winona in a 58-54 thriller played at Menomonie. Trailing by four points at the half, the local favorites grabbed a one point lead on Bob Seaman's terrific long shot at the termination of the third quarter. The final few minutes produced numerous trips to the foul line as Stilp, Keiffer, and Leonard hit the winning freethrows. Stewart's eighteen points paced the Bluedevils while Bruce Leonard, the freshman pivotman from Minneapolis, Minnesota, netted three field goals and six freethrows for twelve points.

Coach Johnson was now beginning to use new men in the battle. The new combination showed up well at times and gave an indication of future scoring strength.

High stepping Jim.

Stout—68, Northland—57

Stout won its second non-conference game in a row when they defeated the Northland College quintet of Ashland, Wisconsin. Northland led through much of the first half, but John Widmar's last second desperation shot the Stout aggregation a one point lead at the intermission. The Bluedevils rolled up a sizeable lead during the third quarter as the Stout reserves played a big part in the winning of the contest. Stewart led both clubs on scoring with 21 points.

Eau Claire—87, Stout—65

Eau Claire's Bugolds, much improved over the first Stout-Eau Claire game earlier in the season, came back to haunt the Bluedevils with a resounding 87-65 victory. The Bluedevils played excellent ball throughout the first two quarters and were rewarded with a 42-38 margin at the end of the half. Roger Hanson of Eau Claire went wild by scoring 28 points and controlling both backboards as well. Stout's big guns were Kieffer and Stewart with fourteen points each.

BLUEDEVIL CAGERS

FIRST ROW: Bob Boldt, Bill Kieffer, Tom Stilp, (Capt.), Bruce Leonard, John Widmar, Tom Stewart, Ray Johnson, (Coach). SECOND ROW: Jim Rokusek (Ass't. Coach), Jim Dailey, Zane Zander, Ron Woodliff, Wayne Pluckham, Bob Seaman, Max Cisco, Gino Cascucci (Mgr.).

Stout—78, Oshkosh—71

The Oshkosh Titans, coached by Bob Kolf, came into Menomonie on the night following the Milwaukee game and were victims of a 78-71 setback. The Bluedevils played creditable ball throughout the contest as balanced scoring led the team to victory. The Stout five had their defensive moments too as the Titans, amazingly enough, were held without a field goal during the third quarter. Tom Stewart led both clubs in scoring with 23 points, followed closely by Kieffer's 21, Bruce Leonard's 17, and Widmar's 13. The win was the fourth of the year and second in the conference race.

As we all look back on the 1952-1953 basketball season, the students of The Stout Institute feel that they have really gotten their money's worth in fast action and good team play. Although the scores are not favorable, they do show that there is a good chance that Stout will have a better, faster, and more accurate shooting team during the next season.

GOLF

Hole In One

This year proved to be very interesting and successful for the Stout golf team and their coach, Robert Takasaki. The golfers practiced hard and long getting into trim. They had one eye on the matches with the state colleges of Wisconsin, and the other eye on the Bi-State and the State meets. Coach-player Takasaki and his team gave the Gophers a run for their money in the divot-digging contest at the Country Club.

The hard practice paid off for the 1952 team, for they won most of their games, and those that they did lose were really hard fought battles, as the opposing teams could tell you. They improved with each match and went on to win the Bi-State meet at Winona, edging out other colleges from Wisconsin and Minnesota. For the season finale, the Stout golfers won third place in the Wisconsin State College Meet at Oshkosh. At this meet Bob Takasaki won medalist honors with a score of 141 for 36 holes to nose out Levenhagen of La Crosse and Spaulding of Oshkosh.

The golf team of this year again showed the fine form that is typical of the foregoing teams. With the closing of the season, the fellows look back and feel that it was a good year.

Tom Stilp

Jim Olds

TENNIS

Five Love

This year's tennis team had to go some to better the good year of the 1952 team. This team compiled a record of three wins and four losses during the tennis season.

The 1952 team traveled to Mankato for their first game and lost, seven matches to one. Their next attempt with St. Cloud was much more successful, for they won five matches to two. The rest of the matches were much the same, but the tournament was the outstanding effort of the year.

In tournament play, the Bluedevil team more than held their own. They opened by competing at Winona in the Bi-State meet between Minnesota and Wisconsin. The squad managed to pile up enough points to take second place in this meet. On the 24th of May, in the State meet at Oshkosh, the team wound up the 1952 season by taking fourth place in the tournament.

This year's team with a good coach to back them made a good showing, and the students of The Stout Institute are glad to be represented by these men.

Figure it up, Ron.

Al's praying for that hook.

*F.O.B.'s came out on top.
Ready for the takeoff, Jim?*

INTRAMURALS

Varsity Competition

One of the many extracurricular activities on the Stout campus is the intramural program for the men students. Not all boys are able to go out for varsity athletics, so that is why an intramural program was started many years ago. This program helps to keep the non-varsity men physically fit as well as the varsity men in shape during their off season.

The present intramural program is under the capable direction of the coach, Jack Wink. He has had experience in this field while at the Universities of Wisconsin and Michigan. His work at Wayne University has helped him to set up a very fine intramural program here at Stout.

On Coach Wink's calendar of events are such sports as basketball, volleyball, baseball, rifle shooting, badminton, bowling, and intramural golf. The F.O.B. team took over the honors for the basketball season, but they were closely followed by the Phi Sigs and Sig Tau Gamma. The volleyball and bowling leagues were well represented, with many teams taking part. Baseball and golfing teams were not to be denied in this intramural program. A golf tournament was held and helped a great deal in filling the open positions on the golf team.

At the end of the year, boys who have participated in the intramural activities are honored at a picnic which is given by the "S" Club. So, you see, you don't have to be a letter-man to enjoy good sports.

Twenty-five years ago the cheerleading squad consisted of one girl and three boys. Today, the situation has just reversed. The squad of only one boy and five girls has the huge job of keeping the pep and spirit of the students at a high pitch while the basketball and football teams are doing their best on the court and on the field. The athletic quality of the game does not stop with the players of the game, for during the time-outs and during the half, the six Stout cheerleaders leap in the air, swing their arms and yell loud enough to shake the rafters, to show how much they are behind the team and appreciate the fighting spirit of the boys. Could you imagine what it would be like if there were no cheerleaders at a Stout Institute game? The color, explosive energy, and school enthusiasm that our cheerleaders have displayed during this past year have been characteristic of the school's spirit boosters for many years.

An added attraction at this year's basketball games has been some impromptu yells given by Bill Bayer and Ed Steineke. Although they are not cheerleaders, they give the crowd plenty of spirit and laughs.

Tom's gettin' up steam.

CHEERLEADERS

Let's Have a Division Yell

The team behind the team.

Once the home of Andrew Tainter, a wealthy lumberman, Tainter Hall was bought in 1906 for use as a women's dormitory. Later, the original stables were bought and remodeled into Tainter Annex. Times may change, but not the lasting friendships fostered here.

Getting Acquainted

During the second week of September, the Stout campus is a beehive of action. Picnics, tours, special convocations, and mixed dances really keep the incoming freshmen busy. From the time that they arrive until the time that the freshmen are ready for their first class, their schedule is jam-packed with fun and new experiences.

Not only is this a time for freshman orientation, but it is also the time for the upperclassmen to see their old friends and re-live the good times that they have had during the summer.

Coming to the dance?

Sigma float: pledges at work.

That's a big one, even for S.T.S. men.

Hell Week

There are many organizations at The Stout Institute that give the student a chance to take part in social activities, to do some worthwhile things for the betterment of the school, and to help worthy causes. Sometime during the first and second semesters, these organizations give rushing parties, choose pledges, and start Hell Week. Everyone at Stout has seen the derby hats, the scarlet sashes, the helmets, the newspaper hats, and all of the other various pieces of wearing apparel that designates a pledge.

Homecoming is the time for queens and floats, the big game, and returning alumni. Take these ingredients, put in a large bowl, and toss gently; that was the recipe for our Homecoming this year.

Much preparation and just plain hard work goes into a big day such as this. There are floats for the parade, the bonfire must be built, decorations for Main Street must be made and put up, and all of this must be done on schedule. With the co-operation of all the students, this year's Homecoming was more fun than work, and it came off without a hitch. Homecoming is the biggest event of the year, and the students can be proud of their 1952 Homecoming.

*Tea with the Bowman's.
Musical mood.*

The snow and ice of winter doesn't seem so bad if you have a variety of things to do with your spare time. Here at Stout, there are many things to do. Teas on Wednesday afternoons help the girls fill their time, while caroling, snowball fights, and general horsplay help to wear off the energy of the more athletic types. On weekends, there are basketball games and the dances that are held in the gym afterwards to help you forget that tough chemistry test, or perhaps it was that rough algebra quiz that you would rather forget. At any rate, winter on the Stout campus is a happy one. The skating rink down on Lake Menomin was the place where most of the students could be found on Saturdays. Some days it was pretty cold and the warming house was a welcome sight. Maybe you were one of those persons who spent most of his time wrong side up on the ice; on the other hand, perhaps you were one of the talented few who could stay on an even keel. But, no matter what type you were, skating was fun, and the rink was a welcome addition to your winter sporting activities.

Snow Time is Fun Time

Phyl and Stu swing it.

"The first Noel . . ."

Another highlight of the winter season was the Winter Carnival. For two weeks in advance of the big day, the men of Stout Institute were very busy cultivating a bushy growth of beard. Although the day dawned bright and cold, many students showed up at the lake for the ice fishing contest, skating races, and the broom and boot hockey game. Coffee and doughnuts helped to take the chill out of the day for the people who participated or just stood around and watched. Ballotting for the queen took place there too, and Queen Dorothy and King Fred were crowned at the dance given that night.

Sadie Hawkins Week was a time of "turn about is fair play." Not only were the girls holding doors, giving up seats, and paying the expenses, but they decided to wear pigtails, perhaps in retaliation for having to put up with those beards during the Winter Carnival. The dance was the climax of Sadie Hawkins Week, and every man and his dog was there for a foot-stompin' good time.

Not all of the time was spent in fun, for semester exams were not far off. Studying was the word of the day for most of the students.

Building the New

Since May 22, 1952, students and faculty of The Stout Institute have been watching each new development of the Library on the corner of Second Street and Ninth Avenue, for when it is finished, the new Library will be a welcome addition to the Stout campus.

The old library on the first floor of Harvey Hall is far from adequate. There is not enough space to store books and periodicals, to say nothing of reading space for the students. If you were to go into the library at a busy hour, you would have a tough time finding a table with enough room for you to sit down and study.

The new Library will be a vast improvement. There will be a reading room equipped for 250 students, a periodical room with a large magazine display case, a stock room with adequate space for volumes for the next twenty to twenty-five years. The Library will be finished late in 1953, but that will not be too soon for the students of The Stout Institute.
